Austin, Texas 78713-7158
EEO Public File Report
April 1, 2006 - March 31, 2007

Statement of Supplemental EEO Outreach Activities:

KLRU-TV participates twice yearly in The University of Texas at Austin Annual Work-Study Job Fair and the College of Communications Job and Internship Fair, the St. Edwards University Job and Internship Fair. We frequently participate in other job fairs, such as those hosted by the Texas Broadcasters Association and Huston-Tillotson University.

KLRU-TV provides internships opportunities to area college students. Over the past year, KLRU has provided a total of 20 internship opportunities; 8 with the national production – *Austin City Limits*, 1 with the Marketing and Communications department, 7 with the Development and Membership departments, and 4 in the Executive Administration department.

KLRU-TV provides student scholarship/employment opportunities to area college students. Over the past year, KLRU has provided a total of 20 work study opportunities; 1 with the national production – *Austin City Limits*, 2 with the Marketing & Communications department, 2 with the Local Productions department, 5 with the Development & Membership department, 3 in the Engineering & Master Control department, 3 in the Educational & Outreach Services department, 3 in the Programming department and 1 in the Accounting department.

KLRU also provides station personnel with training in the use of AVID editing systems, ProTrack systems for station programming & master control, new automation equipment and supporting software for master control & broadcast, Raisers Edge software for the station's membership database, and MS Outlook and Office training. Station management also encourages staff to make use of the University of Texas' free & paid training provided in MS Office programs such as Word, Excel, PowerPoint and Access, HTML and other web building tools, and UNIX.

KLRU staff also participate in mentoring programs where they serve as station "experts/trainers" and train others in their particular skills or knowledge expertise. Those who are considered experts in a skill frequently train other full-time, part-time and temporary staff, which makes them a desirable candidate when a better position becomes available. This same mentorship is carried out in other station areas as well, and has even fostered self-initiated sharing opportunities between staff for something as minor as how to search for promos on PBS connect and APTS online.

KLRU also uses an employee assistance program and professional development services provided by the University of Texas to train management personnel on best practices for ensuring equal employment opportunity, preventing discrimination, and appropriately documenting employee behavior and responding appropriately with either guidance or commendation.
